SIGNET – A professional tool brand trusted worldwide

Founded in 1990 based on the "SIGNAL NETWORK" concept - a global connection network - our vision is to "Connect professionals worldwide through high-quality tools." SIGNET has continuously expanded its range of professional hand tools, serving the automotive repair, industrial, and maintenance sectors. To date, the brand has developed over 720 products, constantly innovating to meet the evolving demands of the global market.

Since its inception, SIGNET has remained dedicated to the perfect balance between superior quality and reasonable pricing. In addition to our core product lines - such as sockets, combination wrenches, and gear wrenches - SIGNET continuously introduces unique and innovative solutions to meet the ever-evolving needs of professional users.

The perfect blend of precision, durability, and aesthetics has established SIGNET as a trusted brand among mechanics and engineers worldwide. Complementing our product quality, our logistics and distribution centers ensure a stable, fast, and efficient supply chain, delivering products to users across the globe.

Guided by the philosophy "Professional Tools - Made Accessible to Everyone," SIGNET continues to grow while remaining steadfast in our core values of quality, functionality, and reliability.

SOCKETS / SOCKET SET

SIGNET sockets are clearly distinguished by material and intended use.
Cr-V (Chrome Vanadium) for standard sockets, notable for high durability and superior precision, suitable for manual tightening and loosening tasks.
Cr-Mo (Chrome Molybdenum) for black sockets (used for impact drivers), designed to withstand high impact forces, meeting the demands of high-intensity work in professional environments.
